Environmental Policy

As a leading manufacturer of KVM solutions, Adder Technology Ltd. is committed to minimising the environmental impact of its products and operations in terms of resource use, conservation of energy and reduction of waste.

Objectives

Adder commits to the following objectives:

- Identify the significant environmental impacts of our activities
- Implement and regularly review objectives for the improvement of Adder's Environmental impact
- Comply with all applicable and relevant environmental regulations
- To minimise our usage of energy and reduce to minimum levels feasible emissions of; Effluents to wastewater / sewers and waste to landfill
- Wherever possible, utilise local sources of materials, components and resources and reduce transportation and handling of our products
- To promote efficient and effective environmental management systems throughout our supply chain

This policy and the objectives are regularly reviewed by the management team with a view to continually improving our environmental performance.
